tablet formulas

cannabinoid-paired 20-tablet formats

TABLETS

Uplife tablets round out the edible catalog with clean 20-tablet packs and clearly named cannabinoid pairings for quick budtender guidance.

Emerald THC:CBG Tablets

100mg THC + 100mg CBG / 20 tablets

A balanced THC:CBG tablet formula with 100mg THC and 100mg CBG per package. Twenty tablets make it easy for budtenders to explain the pack format and cannabinoid pairing.

Lilic THC:CBN Tablets

100mg THC + 100mg CBN / 20 tablets

A THC:CBN tablet formula with 100mg THC and 100mg CBN per package. Twenty tablets provide a portable format for shoppers asking about cannabinoid-paired edibles.

Scarlett THC Tablets

200mg THC / 20 tablets

A THC-only tablet format with 200mg THC per package across 20 tablets. Scarlett is the higher-total-THC tablet option in the Uplife lineup.

Indigo THC:CBD Tablets

100mg THC + 100mg CBD / 20 tablets

A THC:CBD blend with 100mg THC and 100mg CBD per package. Twenty tablets give dispensaries a clean way to merchandise Uplife's balanced CBD/THC option.
